Consumption of fast foods among modern teenagers

Hey, it's Sarah Connor and ~~today~~ the topic of this week is consumption of fast foods among modern teenagers.

About 5-6 years ago I was sitting in our school canteen when my ~~was~~ friend rushed to me and asked about best food to order for his birthday party.

And I, with my passion for reseaches, began this one. A little questionnaire had been printed the next day - and here I was, ~~giving~~ handing a paper to everyone who entered the canteen. It turned out to be a good way - very soon I got answers from all our students. A few days ago I repeated the procedure - to look at the changes. So, now - to the results of our little survey.

As you can see on the graph below, the consumption of pizza and hamburgers had decreased since 2010. It may seem to you a bit odd, but everything, I can assure you, has a clear explanation.

~~Nowadays, fitness and healthy way of living fitness gets more and more popular~~

Nowadays, popularity of fitness is growing very fast. Slim girls and strong boys in good physical shape are in trend; ~~now~~ however, fast foods can't be cut off of teenagers' ~~their~~ daily menu completely.

So, the consumption of the food containing more calories has decreased; while it was replaced, as we can see, with the food with less calories - hot dogs and, preferably, sandwiches.

Of course, it's hard to predict anything, but here are my two versions of the situation development:

- 1) if the fitness trend ~~is~~ stays, the consumption of pizza and hamburgers will decrease again - to the level of about 5-10%, while the consumption of hot dogs and sandwiches will stay the same or increase;
- 2) if the fitness trend disappears, the consumption of pizza and hamburgers will reach the 2010 level again, while sandwiches' and hot dogs' raiting will fall.

As for me, I prefer the situation № 1. Because when you stay fit, you stay healthy. And when ~~you stay healthy~~ our country has healthy teenagers, it gets healthy adults - our future generation.

Get to know Teenagers Better
 Consumption of fast foods among
 modern teenagers
 Weekly column

Hey, it's Sarah Connor and today
 I'll tell you about consumption of
 fast foods among modern teenagers.

Not very long ago I was sitting in
 our school canteen, ~~when~~ when I asked
 suddenly ~~heard~~ my classmate ~~asking~~
~~me~~ my advice ~~to~~ about what food to
 buy for his birthday party.

And I, with my passion for researches,
 began this new one - I did a quick ^{for my} ^{ecology}
 questionnaire and gave a list to ^{anyone} ^{LESSON}
 entering the canteen. ^{very} Soon I got answers from
 all our students! I ~~compared it to that old paper~~

So, now - to the results. It's strange
 how consumption of pizza ^{and hamburgers} had decreased
 since 2010, isn't it? But everything has
 a clear explanation.

2] As you may notice, nowadays we
 have a raising popularity of fitness.

slim girls ~~and~~ and strong boys in good physical shape are in trend now, ~~but~~ but fast food can't ~~be~~ be cut off completely. So, the ~~most~~ ~~of~~ ~~the~~ consumption of the ~~the~~ ones which ~~are~~ have more calories had decreased while they were replaced with the ones with less calories - hot dogs and, preferably, sandwiches.

It's hard to ~~say~~ ~~about~~ predict anything, but I personally suggest ^{two} ~~my~~ version of ~~the~~ ~~at~~ how the situation may be developed in the future: ~~to~~ (190)

1) if this fitness trend will stay, the consumption of ~~hot dogs~~ ~~with~~ pizza ¹⁰ and hamburgers will fall even lower to the level of about 5-10 percent, while the consumption of sandwiches and hot dogs will stay the same or get higher.

2) If the fitness body trend will disappear, the consumption of pizza and hamburgers will reach the 2010 level again, with the hot dogs and sandwiches consumption.

320 329
290 + 30 + 9

As for me, I would prefer the situation No 1. ~~It~~ Because when you stay fit, you stay healthy, and when our country has healthy teenagers, it gets healthy adults, citizens - our future.

300 - 100
x - 10

44 231 + 50 = 281

300 : x = 100 : 10
3000 = 100x

So... Stay fit and don't eat too much pizza at Eric's party!

Sarah Connor

It was about 5-6 years ago and a few days back I've ~~done~~ repeated the procedure. And here we are, looking at the
