WRITING

Recently several charity events were held in the town. One of them was called "Let children study". It took place on the 9th of March in the Central square near the town hall.

Its aim was to raise money for building schools in the poor villages around the town. The participants of the event gave talks on the importance of education and collected donations. The event was special in that the donations were not monetary. Various items were donated which were sold by the volunteers in the following days to raise money.

In the picture above there are several of the many volunteers who organized the event and participated in it. They are holding boxes full of ~~old~~ donated items and expressing happiness for the result of the event.

The event was indeed a success. A large sum of money was raised. It will be enough to build schools in all of the three villages near the town. This is an incredibly important achievement as knowledge, skills and education are essential for every person in the modern world, and building these schools is one of the first steps to make this world better.

Those who attended the event expressed positive opinions about it. Many of them were school students who realised the importance of this event and were eager to help. The adults were also happy with the results and wished that more such events could take ~~place~~ place.

TASK 1. LISTENING COMPREHENSION (20 points: 1 answer = 2 points)

For questions 1-10 complete the notes below filling in the gaps with **ONE WORD AND/OR A NUMBER**.

You will listen to the text **ONCE**. You have 1 minute to look through the task.

Remembering things

Tom's sister used to put little sticky (1) notes all over the house with the things she was trying to memorise. They were absolutely everywhere. That's what Tom should have done while revising for exams. For that subject there were (2) heaps of dates and place names. Tom knew that if he didn't get them straightened out in his (3) wheel, his chances of getting a good mark in the finals were out of the (4) window.

Anna needed to get some (5) change for the ticket machine to get to the airport otherwise she was going to miss her (6) flight. Anna studied French for about seven years but it was really rusty. She was desperately trying to remember how to say the phrase 'I need change' but all that came into her head were words in (7) Gonish. Anna believes that if you conjure up an (8) image of the person who originally taught you or told you something, you sometimes remember it. Anna thought of her old French (9) teacher and suddenly a complete sentence (10) popped into her head. She got the change to buy a ticket.

TASK 2. USE OF ENGLISH (10 points: 1 answer = 2 points)

Fill in the gaps with the words from the box. Each word is used only once. You may need to change the word in order for it to fit the context. There are 2 extra words in the box.

What you can do with your photos

GIVE - REQUIRE - FUNCTION - QUESTION - SUPPLY -
THOUGHT - BASE

It is that time of year again when you are all off on holiday or have been on a great holiday and we all like to take lots of pictures but a lot of us don't do anything with the pictures.

Memories we make on holidays are great and a good way to keep them is to have your photos and pictures printed on to a canvas. Canvas photo printing has been around for a long time but is still very popular and with the amount of people out there that **11. supply** them right now it's easy to find the rite canvas prints for you and as there is so many canvas printers out there you can get a very competitive price.

Canvas prints also make a brilliant gift: it can be very hard to find people a gift that is **12. thoughtful**, personal and unique that is why this could be a great idea for you. Also, nobody wants to give a friend or a family member a gift someone else **13. has given** them already. With canvas printing this will never happen again.

A lot of businesses that specialize in canvas printing **14. are based** on the Internet and this is where you can find the best deal without leaving the house.

There are a lot of effects and touch-ups that can be used when making your custom-made canvas print. Don't hesitate to turn to the personnel working over your canvas. I am sure they will be happy to meet any of your

TASK 3. READING (10 points: 1 answer = 1 point)

Put the following paragraphs in the correct order to recreate the text. Answer sheet 16- 25.

This Is Your Brain on Coffee

By ALAN SMITH

- 3 A. But men who reported drinking two or three cups of coffee a day were 10 percent less likely to have died than those who didn't drink coffee, while women drinking the same amount had 13 percent less risk of dying during the study. It's not clear exactly what coffee had to do with their longevity, but the correlation is striking.
- 10 B. But a cup or three of coffee "has been popular for a long, long time," Dr. Freund says, "and there's probably good reasons for that."
- 2 C. But it's only recently that scientists are figuring out that the drink has notable health benefits. In one large-scale epidemiological study from last year, researchers primarily at the National Cancer Institute parsed health information from more than 400,000 volunteers, ages 50 to 71, who were free of major diseases at the study's start in 1995. By 2008, more than 50,000 of the participants had died.
- 7 D. FOR hundreds of years, coffee has been one of the two or three most popular beverages on earth.
- 4 E. Other recent studies have linked moderate coffee drinking — the equivalent of three or four 5-ounce cups of coffee a day or a single venti-size Starbucks — with more specific advantages: a decrease in the risk of developing Type 2 diabetes, the most common skin cancer and oral cancer recurrence.
- 9 F. Nor is there any evidence that mixing caffeine with large amounts of sugar, as in energy drinks, is healthful.
- 7 G. There's still much to be learned about the effects of coffee. "We don't know whether blocking the action of adenosine is sufficient" to prevent or lessen the effects of dementia, says Dr. Gregory G. Freund, a professor of pathology at the University of Illinois who led the 2012 study of mice.

- 6 H. Participants with little or no caffeine circulating in their bloodstreams were far more likely to have progressed to Alzheimer's than those whose blood indicated they'd had about three cups' worth of caffeine.
- 5 I. In a 2012 study of humans, researchers from the University of South Florida tested the blood levels of caffeine in older adults with the first glimmer of serious forgetfulness, a common sign of Alzheimer's disease, and then re-evaluated them two to four years later.
- 8 J. It is also unclear whether caffeine by itself provides the benefits associated with coffee drinking or if coffee contains other valuable ingredients.

TASK 4. WRITING (60 points)
