## Task 4

The idea of the four-day workweek and reducing the number of working days has gained significant attention. This idea has both advantages and disadvantages.

In text 1 the author finds that the four-day workweek has more advantages (for example, "this approach enhances productivity, ~~well~~ well-being, and job satisfaction"; "employees with an extra day off often perform more efficiently, ~~and~~ they feel more refreshed and motivated"). However, the author of ~~the~~ text 2 believes that <sup>there are more</sup> ~~the~~ disadvantages ~~outweigh~~ than advantages ("employees report feeling increased pressure to complete the same workload in fewer days, leading to stress").

Although ~~but~~ text 1 is a stark contrast <sup>very important</sup> to text 2, both present ~~the~~ ~~idea~~ ~~of~~ the four-day workweek ~~the~~ offers relief to those who need an extra day off. On the other hand, ~~it is risky~~ reducing hours can lower productivity and it might be hard to get used to a more ~~intense~~ ~~intense~~ schedule. But I believe that ~~the~~ <sup>has</sup> ~~there are~~ advantages than the four-day workweek ~~there are~~ more

Уменьшить 4 disadvantages. If the transition from a five-day workweek to a four-day workweek is ~~done~~ <sup>new</sup> done correctly, then this approach will change the way people work in general. ~~They~~ <sup>Employees</sup> will have more time to unwind after a four-day workweek, they will also have more time for friends, family, and hobbies.

In conclusion, I believe that a four-day workweek is a great idea and that there are more advantages than disadvantages. With the right planning, we can change our worklives for the better.

"If Social Media Didn't Exist"

Hello, everybody! Welcome to my blog. Today I will be answering a very tricky question that one of my followers asked me. The question was "What if social media didn't exist?" I'll try to answer it to the best of my abilities.

① Less friends.

I use social media platforms to ~~communicate~~ talk to my friends. I think that without social media I wouldn't talk to most of ~~my~~ friends them because then we

Учеников 5  
 would have to write letters to each other which takes too much time and effort. ~~It~~ With social media it's easy to send a ~~short~~ message. ~~It~~ Without social media platforms it would be challenging to keep in touch with most of my friends.

② More free time.

I admit that I am a social media addict. I spend most of my free time reading ~~the~~ interesting stories on Reddit or VK. Without ~~these~~ social media platforms I would have more free time for hobbies, for example.

Those were the two key points! Without social media my daily life, relationships, and communication would change. I would have more free time for my hobbies, I wouldn't stay up late every night, reading stories on Reddit. Though without social media it will be challenging to make new friends and to keep in touch with the friends that I already have. The way ~~we~~ people connect and share information would be harmed because it wouldn't be as ~~so~~ easy ~~to send~~ as it is now.

What are your thoughts on this

subject? How would your life change? Feel free to share your thoughts in the comment section. Also, feel free to ask me more questions, I will be ~~happy~~ <sup>happy</sup> to answer them. Goodbye! ~~I hope to see you~~
