Task 1.

1. was +
2. had to +
3. would stand +
4. likely to make -
5. has reshaped +
6. While +
7. used to know +
8. wasn't used to being -
9. can move +
10. could benefit +

Task 2.

11. B +
12. K -
13. E +
14. A +
15. F +
16. C +
17. J +
18. I +
19. G +
20. H +

Task 3

21. A + "they feel more refreshed and motivated... a shorter workweek improves mental health"
22. B + "Many businesses fear that reducing hours will lower productivity"
23. C + Text 1 "Not all businesses can implement a four-day schedule easily"
Text 2 "... support often require continuous coverage, making shorter weeks difficult to implement"
24. A + "companies... see reduced absenteeism and higher staff retention"
25. A + "shorter workweek improves mental health and work-life balance", "they feel more refreshed and motivated"

Усмовен

26. C+ Text 1 "It's not all sunshine and roses"
Text 2 "The four-day workweek offers promising benefits, it's also presents challenges".
27. B+ "reducing hours will ~~have~~ disrupt operations in different domains including client relationship management"
28. C+ Text 1 "pilot programmes in multiple companies across the globe show..."
29. B+ Text 2 "in many industries"
29. B "employees ... report feeling increased pressure to complete the same workload in fewer days"
30. C+ Text 1 "The challenge lies in ... reassessing the day-to-day operations"
Text 2 "Success depends on rethinking workflow, prioritising essential tasks..."

TB3: 10

Task 4

During the past few years the discussions about changing the five-day workweek into four-day have become more frequent. The presented texts describe and evaluate ~~advantages and disadvantages~~ ~~advantages and disadvantages~~ and consequences of the four-day ~~work~~ ~~to~~ workweek.

~~While the~~ both texts describe advantages and disadvantages of this schedule, however the first one pays more attention to ^{positive aspects} ~~pros~~ and the second one highlights mostly ~~cons~~ negative ones. As the text 1 mentions ^{and efficiency} ~~only~~ incredible improvement of employees' mental health, the second one seems to stress that they inevitably face with ~~an~~ ~~increased~~ higher level of pressure. At the same time both texts agree that not all businesses can successfully implement a four-day schedule because ~~they~~ the products ~~cannot~~ ~~they~~ often ~~require~~ and services they often

demand a continuous coverage. ~~Attention~~ Числовик
 However, & despite some doubts, presented texts
 come to the conclusion that many industries
 will benefit from the suggested ~~schedule~~ working
 schedule and increase their productivity if they
 find a way to introduce a four-day workweek
 correctly. Personally, I believe that this kind
 of schedule has more advantages than disadvan-
 tages. ~~The invention~~ This working model allows
 employees to remain fresh, dedicated to work and
 willing to do their job more effectively. However, as
 a customer I want to be able to have access
 to some services almost every day of the week.
 From this side four-day workweek is something
 I am going to be against about.

In conclusion I would like to stress
 that undoubtedly many companies will eventually have
 a four-day workweek despite the possible inconveni-
 ces and obstacles.

Task 4

~~I believe that almost everyone could
 themselves in the situation where they could not
 or didn't have access to the Internet. As a
 result they could not check use the and
 update their social media. Doomsday of our generation.
 lets imagine "the Doomsday" that one day you wake up
 and ~~at social media have disappeared. What
 there is no social media, it just dis-
 appeared. What are you going to do? The first thing
 that comes to my mind is to panic, because to
 be honest our generation is addicted to social
 media. When you calm down the next question that
 will be: "How am I going to communicate?". Lets
 talk about that at
 "the battle with the addiction". "Back to the middle
 centuries"
 There is no doubt that our life will become a
 lot more challenging because we almost build our~~~~

~~times with social media. We use~~ ^{are} used to ^{were} rely on social media platforms in many situations. Many news, gossips and useful advices we know from ~~the social media~~ ^{these} platforms. They are the easiest way to communicate. One second and a person on the other side of the globe gets your message. ~~It~~ Without this technology we are left with old, but classic way of chatting — with letters. Just imagine you heard a rumor and want to discuss it with your friend from another country. In order to do this you would have to send a letter and way you weeks it not for months. Obviously this would be an enormous harm to the way people connect. Moreover, ^{even} breaking news would be delivered in a couple of days instead of a few seconds.

~~2. "If you don't have social media, you don't exist"~~

~~Almost every person have their ~~social media~~ accounts on many platforms. They share pictures, videos, highlights of their dog and just stories there. They simply share their life. Many of people love in social media. They chat there, make new friends and find relationships. There is no life for them outside social media. According to the statistics an average person with a social media account checks his profile almost 100 times per day. That is insane!~~

~~3. "Adapt or die"~~

In my opinion it will take an enormous effort for our generation to adapt ~~with~~ to living without social media. To make adaptation easier I can suggest socializing more, travelling ~~more~~ ^{with} and learning to be more

patient. (Чистовик)
~~What do you think about this issue?~~ What would
 you do if social media didn't exist? Would you
 adapt or you better die than live without social
 media? Live your thoughts in the comments!
