Task 4

The four-day workweek has ~~drawn~~ come to the attention of various companies due to its wide appeal to staff. Some experts ~~point~~ out that ~~the innovative approach allows businesses to manage time and other resources more efficiently~~ the innovative approach will increase the businesses' profit, while others argue that ~~the~~ implementation of ~~the~~ new schedule ~~is supposed to~~ lead to a decrease in productivity. Clearly, the ~~above-mentioned revolutionary~~ management concept will bring about significant change.

~~The first and most important consequence of the introduction of the four-day workweek model would be~~

The most obvious advantage of introducing a four-day workweek model ~~is~~ would be the chance to manage time and other resources more efficiently. Task 5

If Social Media Didn't Exist

Introduction

Have you ever wondered what your life would be like if social media dissapeared? Would it be for the better or worse for our generation to live like our grandparents did? These questions have been plaguing me for quite a while, ~~which is why I have made~~ ~~it caused me to~~ decided to share some ideas with you.

Communication

~~This is~~ Obviously, without Telegram, WhatsApp and other beloved social media platforms our communication would be restricted to phone calls, primitive text messages or emails and real-life conversations. The mere thought of such a drastic change may seem nightmarish, however, ~~if you give the idea more thought,~~ ~~after~~ ~~when~~ ~~you~~ after the initial shock wears off, you start to notice the ~~other~~ upsides. Firstly and most importantly, the shift to real-life communication ~~would~~ ~~be~~ lower stress levels significantly. ~~This~~ Moreover, the suggested change would improve our relationships with ~~the people~~ ~~into~~ close relatives and friends as we would spend more time with them instead.

of engaging in ~~online~~ endless online disputes.

Sharing information

"But how would we share the news without social media?" you might ask. ~~It would be pointless to deny that~~

Denying the role of ~~online~~ internet platforms in delivering information would be pointless. ~~and I agree with this~~ I suppose ~~that~~ we'd have to come to grips with ~~being~~ ignorant of some events. ~~but on the bright side,~~ ~~on the bright side,~~ On the bright side, massive disinformation would finally end.

Health ~~and challenges~~

As a ~~person~~ person with poor eyesight, I cannot help pointing out the ~~positive~~ negative influence ~~influence of not using social~~ ~~the use of social~~ ~~social media has that the use of social~~ ~~media has on eyesight.~~ ~~Without the~~ Our ~~messengers our health~~ health would surely benefit from the disappearance of messengers

Conclusion

~~No~~ Suffice it to say ~~the disappear we~~ would have to ~~overcome some adapt to some~~ inconveniences if social media ~~disappear~~ disappeared. However, positive changes would follow. And what do you think about life without text messages? Feel free to share your

opinion in the comments below - I
would be delighted to read it!
