Task № 4

Once upon a time a beautiful girl named Linda was sitting on a bench and scrolling the news in her phone. Linda wrote a negative comment below the photo of a random woman. As it turned out, this woman was an evil witch and she didn't like this critique. The witch decided to curse Linda and make her live with the Beast until she falls in love with him.

In the blink of an eye Linda appeared in a huge mansion. It was a real paradise, but Linda was thinking about other things. 'There is no any internet connection here! How am I supposed to survive here?' - she shouted.

Then the Beast arrived. He decided to accommodate her in the most luxurious room he had and let her get accustomed

to such conditions. The Beast knew about the curse and was pondering over the way to break it for the whole night. Eventually, he found the solution.

The next day he took her to the summit of a mountain and showed her the most mesmerising landscape a human brain can only imagine. Linda was enchanted by it. She forgot about social media for the very first time in her life and instantly fell in love with the Beast. The curse was broken, but she decided to stay with him forever.

The moral of the story is the following: nowadays people forget about the beauty of the real world and spend too much time in the internet.
