INTRODUCTION

Hello, dear readers of my blog! Have you ever wondered how to prepare for the English Olympiad? If yes, then this is

Task 5 (программирование)

your lucky day ~~!!!~~, because that is exactly what I'm going to discuss today! I will not only give you some general recommendations, but also share my personal tips, so strap in.

SET UP A SCHEDULE

To start off, I would recommend setting up a schedule for your studies, as this is essential for any Olympiad. Breaking your study plan down into specific periods of time will help you to not fixate on one thing for too long and to preserve your focus and energy.

DON'T BURN OUT

Moving on to the next topic, even though I'm sure you've already heard this a million times, you must take this seriously. It's very important to not overwork yourself, because it can take a toll on your studies. To prevent that, I would advise you to take breaks and give yourself time to relax.

WATCH AND READ

Lastly, ~~finally~~ I'd like to recommend you a method of preparing for the English Olympiad that I find particularly useful, which is watching films and reading books in English. This will build your vocabulary and improve your comprehension skills. And the good thing is that you can consume any media as long as it's in English!

CONCLUSION

All in all, I believe that these recommendations are sure to help you prepare for the English Olympiad. But what do you, the reader, think of ~~the recommendations~~ them? If you have any tips or ~~recommendations~~ suggestions of your own, please leave a comment and maybe you'll help someone out too!

$$K1 = 15, K2 = 16, K3 = 10, K4 = 10 = 51$$

$$06: 13 + 10 + 10 + 10 + 51 = 94$$
