Задание 16

Hello! ~~My name~~ I'm Barbara, a high school student who is passionate about fashion and caring about nature. I'm applying for the "Young Innovators" grant to launch Eco Fashion - a clothing brand that combines style with awareness. I believe that people can look great without harming our planet, that's why I want to make eco-friendly

Clothes trendy and accessible to everyone.

My brand will meet modern people's needs. Eco Fashion will use ^{not} ~~materials that can be re-~~ natural materials, such as cotton, linen, wool in production. Moreover, it will have a separate line of clothes made of recycled plastic. The catalogue will include T-shirts, jeans, hoodies. The customers of my brand are conscious people of all ages (from 15 to 25 in particular) who care about the environment.

In my opinion, fashion nowadays creates massive waste and pollution. Eco Fashion addresses this problem thanks to the use of materials that can be recycled. Also, I plan to extend the lifecycle of the clothes. The items will be of very high quality and will not require replacement for many years. Moreover, I will train our consultants to select clothes suitable for the client so he or she will not need to spend a lot of money and will not buy unnecessary goods.

Despite the fact that fashion industry is one of the most dangerous pollutants on the planet, my approach to work will reduce harm, which is why it is so important.

I think that I will start my business locally, selling things at fairs. Later, I'll switch to online platforms. The agenda of eco-friendly fashion is very popular nowadays, so I will easily find sponsors for large-scale production at the international level so that people around the world can wear stylish clothes without harming nature.

To my mind, the best way to develop my brand is to advertise on social networks. I'll create an app with online fitting rooms to make shopping more comfortable. Also, I will hold various contests with cool ~~prizes~~ prizes on my brand's page to attract people.
