Задание 6.

Nowadays, more and more people eat processed food, not knowing or not caring about how unhealthy that is. What if you could come at a modern cafe that sells fresh local food? You might think that the food won't be tasty and it will be expensive, however, that's not true at all! We have developed ~~our own~~ a unique strategy that will help us not only ~~sell~~ ^{sell} healthy and delicious ~~and~~ dishes, but also enlighten ~~and~~ adolescents ~~and~~ teenagers who are usually preoccupied with whether they want to eat a burger or buy a slice of pizza, and show them how to cook ~~and~~ ~~and~~.

As you ~~know~~ ^{could've guessed} ~~we~~ ~~are~~ ~~in~~ ~~the~~ ~~business~~ ~~we~~ ~~are~~ ~~planning~~ we will sell healthy drinks and dishes that are suitable for people with different diets. Our recipes are based on the ones you get at ~~the~~ the finest restaurants, however, they are adapted to our reality: they are healthy and the needed ingredients are transported from the local farm directly to us. Our target customers are young people that want to eat out with their partners or friends in a ~~is~~ quite modern place.

According ~~to~~ ~~various~~ ~~studies~~, a substantial amount of young people in our country suffers from obesity and it is one of the main reasons people die earlier than ~~is~~ normal. That is why our business is important, we ~~are~~ ~~going~~ ~~to~~ ~~solve~~ a ~~major~~ major issue in our country. That is another reason why we can also ~~be~~ subsidised by the government. Also our cafe will work locally as it is ~~impossible~~ ^{impossible} to transport fresh products to further places, however, in the future we can create a chain of such

cafes across our country in other places near farms. Additionally, our marketing team will advertise our cafe at public places, and it is really attractive because we will have an open kitchen, so that young people can see how the dishes are cooked. ~~we will also provide a balance of modern technologies and physical environment with people in order to create the best experience for our customers.~~

To conclude, ~~our business will solve an important problem of our society and~~ it is crucial to support us as we save lives. If our cafe rings a bell, you must know that you eat well!
