Business: Eco Box

In today's world, people are becoming more environmentally conscious, yet many still struggle to reduce waste in their daily lives. That is why I would like to introduce "Eco Box", a subscription-based service that helps customers live sustainably with ease. 1

Eco Box offers monthly packages filled with eco-friendly products such as reusable kitchen items, ~~biodegradable~~ biodegradable toiletries. Our target customers are teenagers and young adults who want to make greener choices but don't know where to start. The main goal of Eco Box is to solve the problem of excessive plastic waste and promote a sustainable lifestyle.

Many people want to help the planet,
 but eco-friendly products usually
 expensive or hard to find. Eco Box
 makes sustainability simple, affordable,
 and accessible. This is important
 because small daily actions can
 lead to big global changes.

At the beginning, the company will operate
 nationally through online sales. In the
 future, we plan to expand globally as
 demand for eco-friendly solutions
 continues to grow.

In conclusion, my slogan is "To be
 green - cool", because like that I can
 explain my idea. The value of my idea -
 helping our planet and nature.
