THE ENGLISH OLYMPIADS FOR EVERYONE

INTRODUCTION

Are you interested in participating in the English Olympiads but you don't know how to prepare? ~~Then~~
~~Then, you~~ If so, you will find all answers in this post. As I'm a prize winner of several Olympiads, you can definitely trust ~~some~~ ^{my} pieces of advice. ~~which I~~
give.

EDUCATIONAL ADVICE

Of course, the main thing in preparing for the English Olympiad is learning some information. As for reading, listening and country studies, you can implement passive learning in your routine. Watching YouTube videos or films will make the process more entertaining. If you want to develop your ^{vocabulary} knowledge, ~~it would be~~ it would be beneficial to use some apps like Quizlet or Anki to learn different words, idioms and phrasal verbs. Don't forget to use only reliable sources. For example, they can be Oxford and Cambridge dictionaries. Lastly, the grammar section is important as well. The

only ~~very~~ useful way ^{which} I know ^{how} to achieve a great level in grammar is to do ^{some} ~~exercise~~ ~~exercises~~ tasks in ~~text~~ books. I've already written a post about it, so check it out in my blog. ~~Remember~~ ^{Besides} It is vital ~~to~~ not only to study ~~best~~ ~~to~~ ~~for~~ also to practice the Olympiad format. ~~You~~ ^{you} can use the past ~~papers~~ papers. ~~to~~

For example,

CONSISTENCY AND MOTIVATION

Studying itself doesn't mean anything if you don't have ^{enough} discipline. If you want to succeed and win the Olympiad, consistency is the key. Motivation is important but you won't see much progress without being consistent. So, I advise ^{it's high time} you ~~to~~ learn something on a daily basis. Try to surround yourself with English and you will see a huge difference. Personally, ~~study~~ learning information and consistency have always been equal. ^{for me} What is more important from your point of view? You can share your opinion in the comments.

$$K1 = 15, K2 = 12, K3 = 10, K4 = 10$$

$$= 47$$

$$OB = 8 + 10 + 9 + 10 + 47 = 84Б.$$
