Задача 4

A brown ~~surprise~~^{suprise} from the bushes

On a nice day in the countryside, everything felt calm. Me and my friends were enjoying ourselves on our forest trip. Summer air was quite hot but shades of trees made it chilly and comfortable for breathing. Birds were singing and flowers were blooming. We had been travelling on a soil path for hours and it seemed to stretch forever.

Suddenly, a loud noise suprised everyone. A big oak branch we had walked past a minute before was broken. "Wait for me here. I'll go back and look ~~at~~ at the log", I told my friends. "Okay. If anything happens, be careful", they replied. I made my way back, looking around for anything ^{unusual}. When I arrived, I saw the oak stick and bear paw footprints coming to and from ^{it} on the ground. Then I understood: it was a bear! A chill crawled down my spine as I was going back to the company. Out of nowhere, bushes near me began to shake. After that a big, clumsy, brown bear emerged. "Is everything okay?" my friend shouted. I didn't say a word and laid on the ground, trying to remain calm. The bear came up to me, breathing violently. It sniffed me from head to toes before proceeding to eat berries ~~in~~ in my pocket. ~~After~~ Furthermore, it finished its meal and left. I was so relieved and returned to my ~~friends~~ - frightened friends.

In the end, we all got to our homes safely with a scary story to tell our parents. I'd never thought something so interesting would happen to me.

$$TB4 = 3 + 4 + 8 + 5 + 4 + 1 + 4 + 5 + 10 = 445$$

$$DB = 20 + 9 + 16 + 44 = 895$$
